

End The Personal Property Business Tax

It's bad for business and bad for our economy.

Dear Fellow Business Owner,

Each year, Idaho businesses are forced to pay the "Personal Property Tax" on their tools, equipment, furniture, computers and other tangible items related to their operation. You name it, they tax it!

This tax is unfair and hurting Idaho businesses. It's also bad for our economy. The "Personal Property Tax" on business creates a disincentive for businesses to invest in new equipment because they are then taxed on that equipment every year they own it.

It's time for Idaho's businesses, large and small, to stand up to the Idaho Legislature and say, NO MORE. Join in helping eliminate the "Personal Property Tax on Business" today!

The Idaho State Legislature is considering proposals to eliminate the "Personal Property Tax on Business". But unless they hear from you and other Idaho business people, the tax will probably continue.

Simply sign one of the attached cards and return it in the mail today. Tell the Idaho Legislature that you no longer want to be over taxed!

Sincerely,

Idaho Association of REALTORS®
Idaho Lodging and Restaurant Association
Idaho Retailers Association
Idaho Association of Commerce & Industry
Milk Producers of Idaho

Dear members of the Idaho State Legislature,

I urge you to support elimination of the personal property tax in Idaho.

As a business owner/operator, I see firsthand how this unfair and costly tax affects Idaho businesses.

- *The personal property tax discourages new investment in machinery and equipment...*
- *The personal property tax is confusing and difficult to comply with...*
- *The personal property tax punishes businesses that are trying to grow...*

It's time to end this tax. Please support the elimination of the Personal Property Tax on Business.

Sincerely,
